Boldly Innovative Products for Modern Custom Aircraft

## Space Shuttle Switch Guards

We asked NASA for their Rockwell-designed Space Shuttle titanium switch guards but they wanted \$800 each (Your tax dollars at work!)...so we made our own aluminum masterpieces.

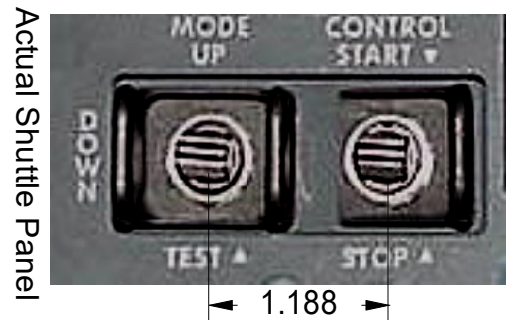

1.18" wide, 0.90" X 1.04.

(Thanks to Historic Space Systems)

We supply these in a CNC version to NASA and the military but no longer offer them to the general public because of cost. The ones we sell are precision investment castings A356-T6 aluminum (same as car alloy wheels and engines). Very rugged and identical to the originals except they're aluminum, so they're 60% lighter.

Investment cast P/N PDM-005E Price:

**US\$ 8.99 each**

Actual Shuttle Panel

### Discount Schedule

1- \$ 8.99

10- \$ 8.55

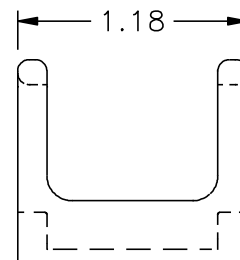

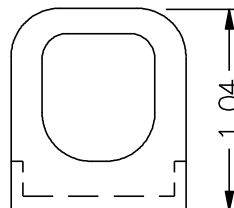

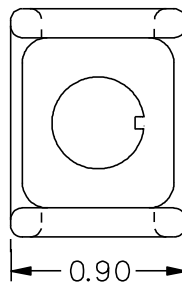

50- \$ 7.44

100- \$ 6.63

500- \$ 5.47

Fit both 15/32" and 12 mm

Switch Bushings

INCHES Duns: 137357138 Cage Code 7CYT6

Perihelion Design Switch Guards and other parts were used aboard the Red Bull Stratos World Record Freefall attempt.
